

**Choose your
own adventure**

Welcome traveler...

It is your first night on duty.

Let's begin the journey

**You must pick your equipment..
What do you need?**

Walkie & ID

Sword & Shield

You pick up your sword and shield.
You are removed from housing
for having a weapon.

Go get your
Walkie & ID

You grab your walkie and ID and are ready to roll. You start to walk in the building..

Where will you go now?

1st floor

Dungeon
(Basement)

3rd floor

You walk down the 1st floor hallway.

A knight has fallen in the hallway.

What do you do?

Run Away

Approach the
Knight

You take the stairs down to the
dungeon.

You see the boiler room is open.

Investigate

**It doesn't appear there are any
monsters in here.**

Shut the door
And continue on
to a different
path

You take ye olde elevator to the 3rd
Floor.

The door opens and you hear
something.. A festival?

Walk down
the hallway

You hear a festival in 307.

It's 2 am on a tuesday...

You knock on the door, bottles clink.

It goes silent.

Knock again

'Reslife' you call out

**A troll comes to the door, he smells
like ale**

Hello troll, may
I come in?

What's going
on in here?

The troll lets you in and the room is completely empty. You see a bottle of ale on the counter.

The jig is up. Campus land does not allow alcohol!

Call for backup

You call the RHM of campus land.
You let the troll know everyone needs
to come out and bring the alcohol to
center of the room.

Monsters pour of the rooms as the rhm
arrives.

Follow the
RHMs orders

You have the MONSTERS pour out the alcohol after it is placed on the counter and photographed.

The troll takes it to the dumpster. You write a CONCERNS REPORT ON a scroll.

GOOD JOB!

You followed protocol.

Back to duty

GASP

The knight is unresponsive.

Call 911

Check for a
pulse

**You are not a doctor and he is
unresponsive!**

Call 911 immediately.

Call 911

he died!

Time travel back to fix your mistake

Help the
Knight

You call 911...

Now what?

Call RHM

Call another RA

Good job! The RHM is notifying sir
JEFF and on their way. What do you
do in the meantime?

Stay with the
student and
start CPR

Let the desk know
to watch for the
ambulance

That's fine to call back up.. But you really need to let the RHM on call know!

Call RHM

You stay with the student, keeping the crowd down and performing CPR as you wait for the RHM and ambulance.

Continue CPR

You should let the desk know, but the RHM can do that. If they are unconscious, you should probably start CPR until the ambulance arrives.

Start CPR

The RHM arrived and switched off with you for CPR. The ambulance came and helped the student. The knight is taken to the hospital and is going to be okay because you helped.

What now?

Debrief and write a
concerns report

Go to bed

**Not quite... there's still work to be
done.**

Debrief and write a
concerns report

Good job! You talk it through with your RHM and write the CONCERNS report.

Don't hesitate to check in with your RHM or additional resources. That was tough!

Back to duty
